Alzheimer's is the most common cause of dementia, a general term for memory loss and other cognitive abilities serious enough to interfere with daily life. Alzheimer's disease accounts for 60-80% of dementia cases.

Alzheimer's disease, from the brain is reasonably likely to reduce cognitive and functional decline in people living with early Alzheimer's. Today, there is a worldwide effort underway to find better ways to treat the disease, delay its onset and prevent it from developing!

ASSISTED LIVING & MEMORY CARE COMMUNITIES

NOVEMBER 2021

RESIDENT SPOTLIGHT

Jerome Hawks

(Villa C)

Jerome has been at PSV for only a short time but has made an impact on our community. He is always there to lend a helping hand and has a heart for others. A few facts about Jerome are:

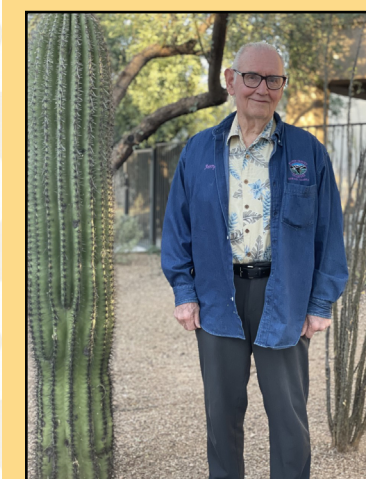

He was born on August 9th, 1933 in Little Rock, Arkansas.

He loves sport cars, motorcycles, and atv's.

He has 3 children and 3 grandchildren.

A few of his jobs included being in the Airforce,

working in the Police Dept, delivering newspapers, being a farm worker, a dishwasher then became the cook at a restaurant.

What Jerome likes best about PSV is the staff and attending the activities.

Advice he wants to give everyone is to get to know someone first, give them a chance before you judge them. That goes for both the staff and the residents.

It has been a pleasure having you with us Jerome!
